INTRODUCTION

The RCBS R.A.S.S. Utility Tray has been designed specifically to provide ample area to keep your shooting related accessories and extra ammunition close at hand. The Utility Tray also provides a convenient built in Drink Holder.

If additional storage is required, three locations are provided for the mounting of AkroBin® style boxes (AkroBins not included).

UNPACKING

Remove the contents from the packaging and lay them out in an orderly fashion to ease the assembly process.

ASSEMBLY INSTRUCTIONS

Using a 4mm hex wrench (not included), attach the Tray Support to the Tray Brace with the four M6 Funnel Head Cap Screws. NOTE: The shorter straight arms of the Tray Support are closest to the dovetail mount of the Tray Brace. (See Photo)

Using a 6mm hex wrench and 13mm wrench (neither included), attach the Tray Top to the Tray Support using the four M8 Socket Head Cap Screws, Washers and M8 Nyloc nuts. (See Photo)
Attach the Mount Receiver to the Front Clamp Assembly using the two M6 Socket Head Cap Screws and a 5mm hex wrench (not included). Note: There is a wide and narrow part to the dovetail of the Mount Receiver. At this point it makes no difference which way it is secured to the Front Clamp. However, when securing the Front Clamp to the center support of the bench, the wider part of the dovetail needs to be at the top.

Attach the Front and Rear Clamp to the Center Support of your R.A.S.S. Bench with the two Thumb Screws. The wide part of the dovetail must be at the top and the dovetail should be opposite of your seat location. The height of the Clamps should be just above your knees when seated on the R.A.S.S. Bench. (See photo) Adjust the height of the Clamps to your comfort.

Attach the Tray Top assembly to the Clamp. The dovetail features a ‘bayonet’ type mount, slide the bottom half of the Tray Mounting Brace into the Mount Receiver and press downward. (See photo)
Insert the Drink Holder into the corresponding hole in the Tray.
